The background of the entire cover is a vibrant orange. It is densely decorated with various botanical line drawings in black ink. These include a wide variety of flowers (some with multiple petals, some with spiral centers, some in pots), leaves (simple oval shapes, fern fronds, and complex branching structures), cacti (columnar and barrel types), and succulents. The drawings are scattered across the entire surface, creating a lush, garden-like feel. In the center, a large, light-yellow circle contains the title and author information.

dedicated to  
**LUCY & Billie**  
(and Laurie)

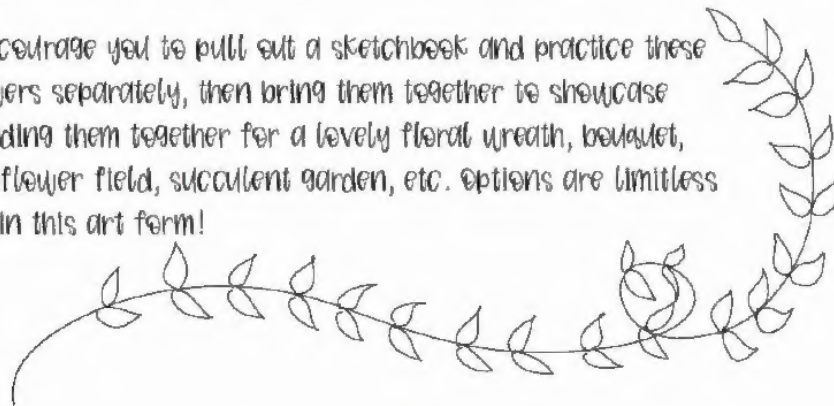

Welcome to Botanical Line Drawing!

This is such a playful, sometimes delicate, and easier-than-you-probably-expect art form that doesn't require many materials, but does allow you to branch out and create something gorgeous by applying other types of art to your illustration. Line drawing looks lovely as a standalone piece, but also works well when incorporating watercolor, hand lettering, etc. Adding line drawings can really bring a piece to life.

This step-by-step book guides you through pages and pages of simple illustrated instruction, introducing 5 steps per illustration. You will see that each step adds onto the shape or detail, and in no time, you'll have produced your very own coveted line drawing!

I encourage you to pull out a sketchbook and practice these flowers separately, then bring them together to showcase blending them together for a lovely floral wreath, bouquet, wildflower field, succulent garden, etc. Options are limitless within this art form!

let's start →

- page 9 leaves
- page 71 flowers
- page 169 cacti & succulents
- page 186 more nature

Let's see  
YOUR  
work!
